

Francesca Campo

TECHNICAL & LOGISTICS RIDER

Booking live harp for your congress is simple. This sheet gives your production team everything they need — most receptions and dinners are covered fully acoustic, with a footprint smaller than a café table.

SETUP TIME	FOOTPRINT	SOUND	ACCESS
~45 min	2 × 2 m	Acoustic or 1 mic	Step-free

STAGE & SPACE

PERFORMANCE AREA

A **flat, stable, level surface, min. 2 × 2 m** clear, sited away from the main flow of guests and service routes.

SEATING

The harp is played seated — one **armless chair or stool** at standard height, if one can be provided on site.

LIGHTING

A warm, even wash on the performance spot so the music stays readable. No direct spotlight or heat lamp on the instrument.

SOUND & POWER

ACOUSTIC SETTING

No amplification needed for receptions, dinners and ceremonies of up to ~80–100 guests, or wherever the room is reasonably quiet.

AMPLIFIED SETTING

For larger rooms or over background noise: **a single input** — one microphone or pickup — into the house PA. A pickup can be provided on request.

POWER

None required when acoustic. One standard socket within ~5 m only if amplification or stand lighting is used.

TIMING & TRANSPORT

ARRIVAL & SETUP

On site **45–60 min before guests** for setup, tuning and a short sound check.

SETS

Typically **2 × 45 min**, or continuous background music with short breaks — shaped to your run of show.

ACCESS & PARKING

The concert harp is large (~180 cm, ~38 kg). It needs **step-free access** (ground floor or a lift that fits it), a clear path from vehicle to stage, and loading/parking near the entrance. Please flag any stairs or thresholds in advance.

FORMATS

- **Solo harp** — concert (pedal) or lever harp
- **Duo** — harp & flute or harp & cello

REPERTOIRE & ATTIRE

- Classical, Mediterranean & contemporary
- Tailored to your **theme or host city**
- Elegant, formal concert attire

THE INSTRUMENT

- Sensitive to humidity & temperature — kept indoors, out of direct sun, rain and heat sources
- Outdoors: **shade, a dry level surface and a weather contingency**

Tailored to your event

Every detail here is adaptable. Share your venue and run of show, and I'll confirm the exact setup for your congress or gala.
